

CALL YOUR SENATOR

AHCA PHONE SCRIPT

Make your call now! Your calls are making a difference!

Dear *[Senator]*,

As your constituent and a supporter of the National Organization for Women, I am emailing to urge you to do all that you can to stop the [AHCA] from becoming law.

This bill will put women directly in harm's way by making health care inaccessible to people with pre-existing conditions--including those who have survived domestic violence, experienced postpartum depression, or undergone a cesarean section. It will cost millions their health insurance--and thousands their lives. This is quite literally a question of life and death.

[Your Senator], I am asking you to act with your conscience and with your constituents. End this health care nightmare and know that women will be watching your vote.

Respectfully,
[Your Name]
