

TAKE ACTION: HHS STRATEGIC PLAN

The U.S. Department of Health and Human Services (HHS) has released their 2018-2022 Strategic Plan, and it is a thinly-veiled plot to roll back reproductive rights. By stating that the goals of HHS are to serve and protect **“Americans at every stage of life, beginning at conception,”** the department directly undermines the U.S. Supreme Court’s decision in *Roe v Wade* that affirms the constitutional right to safe and legal abortion. The use of personhood language emphasizes the department’s skewed priorities, and sets a dangerous precedent for future policy. The language in the strategic plan also emboldens faith-based organizations and their refusal to provide employees birth control.

We’re asking NOW activists to comment on the draft Strategic Plan and demand that HHS removes all personhood language. Take action NOW before comments close on October 27!

*The U.S. Department of Health and Human Service’s 2018-2022 Strategic Plan is the Trump Administration’s latest attempt to undermine women’s reproductive health care. When the HHS states that they are dedicated to “serv[ing] all Americans from conception to natural death,” they attack women. Women are not fooled by coded language that limits reproductive rights, undermines *Roe v Wade*, and infringes upon our autonomy.*

This guidance sets a dangerous precedent, and helps pave the way for future policies that infringe upon a woman’s constitutional rights. It is not the place of a government agency to determine a woman’s reproductive healthcare choices; rather, that decision should be between a woman and her healthcare provider. I demand that the U.S. Department of Health and Human Services remove all personhood language (“life begins and conception”) from their Strategic Plan, and all other policy documents.

TALKING POINTS

1. In its 2018-2022 Strategic Plan, the U.S. Department of Health and Human Services (HHS) included a thinly-veiled plot to limit reproductive rights.
2. By stating that the goals of HHS are contingent upon “serving and protecting Americans at every stage of life, beginning at conception,” the department directly undermines the U.S. Supreme Court’s decision in *Roe v Wade* affirming the constitutional right to safe and legal abortion.
3. A woman’s reproductive choices should be between herself and a licensed health care provider, not Congress, not the President of the United States, and not the U.S. Department of Health and Human Services.
4. This is a clear declaration of the department’s priorities--and sends the message loud and clear that protecting women’s health is not one of them.
5. This guidance sets a dangerous precedent, and helps pave the way for future policies that infringe upon a woman’s constitutional right to bodily autonomy.
6. The U.S. Department of Health and Human Services is threatening women’s access to abortion care and birth control, under the guise of protecting religious freedom.

SOCIAL MEDIA ACTION

The HHS 2018-2022 Draft Strategic Plan has devastating implications for women and reproductive health. It is a “license to discriminate.” But here’s the scariest part: most people don’t even know it exists! That’s where you come in. After you have left your comments on the HHS Strategic Plan, we ask that you spread the word on your social media channels. Facebook, Twitter, Instagram, even Snapchat! It is critical that we make sure we are not silent about this new plan.

National NOW and our allies will be using the hashtags #HHS_CODES and #HHS_FACTS. Below we have provided social media messaging for Facebook and Twitter, as well as graphics:

HHS STRATEGIC PLAN
A BLUEPRINT FOR DISCRIMINATION

CODED LANGUAGE
"Protect all Americans from conception to natural death" really means...take away access to abortion

JUNK OF SCIENCE
The HHS is pushing anti-choice strategy that can and will have devastating effects on women's reproductive justice—all based on falsehoods.

FAITH-BASED ORGANIZATIONS
The new HHS plan references "faith" or "faith-based" orgs over 40 times. How about we focus on women's health instead?

WHO WOMEN SHOULD TRUST WITH THEIR REPRODUCTIVE DECISIONS:

- ~~• Their Senator~~
- ~~• Their Boss~~
- ~~• Donald Trump~~
- Their Physician
- Themselves

HANDS OFF MY RIGHTS.
