We cannot afford to lose abortion access! We NEED the Women's Health Protection Act, which would establish a federal statutory right to access abortion care. The WHPA already passed in the House, but the bill needs at least 52 votes to pass in the Senate. Call your Senators today and demand swift passage, this is a life-or-death issue! Contact your Senators by calling the Capitol Switchboard at 202-224-3121 📞

Our reproductive freedom should never be taken away. That's why we must codify Roe by passing the Women's Health Protection Act. If our Senators truly represent us, they need to vote for our lives

and PASS WHPA! If they cannot vote for us, we won't vote for them! Let's get the phones ringing off the hook, the clock is ticking. 🕒 📞 202-224-3121
