Women Will Save Democracy, But Young Feminists Will Create It

The theme for this year's NOW Annual Conference is Women Will Save Democracy. We already know this will be true, since women are not only the largest group of registered voters, but they also turn out to vote in high numbers. Ask any state that has had a ballot referendum on abortion since the Dobbs decision!

Overwhelmingly, young voters have the most at stake in this November's election. The next president could appoint two more supreme court justices, states have essential ballot initiatives to consider, and Project 2025 could be looming in the distance. In this fall's presidential election 8.3 million young people will be newly eligible to vote, making young voters the changemakers this election. Imagine if everyone at your school voted? In every school in your state? In every school across the country?

Women will save democracy, but young feminists will be the ones to create it. It's time to get out there!

Happy Independence Day!

AWESOME!

NOW is hosting our Annual Conference from July 19th to July 21st! We will have panels, speakers, and resolutions to vote on for members in good standing.
